Accelerated Death Benefit for Terminal Illness Rider	Accelerates up to 50% of the life insurance death benefit (to a maximum amount of \$100,000) if a covered person is diagnosed for the first time with a terminal illness. Terminal illness is an illness that, in the best medical judgment, will result in death within 12 months. The accelerated amount will be deducted from the death benefit and this rider will terminate. We will deduct an administrative fee of \$100 and 12 months interest from the accelerated amount. Any remaining death benefit will be paid to the beneficiary upon the covered person’s death.
Waiver of Premium Due to Layoff or Strike Rider	Waives the premium for up to six months in the event of involuntary layoff or strike. This rider is not available to self-employed individuals.
Accelerated Death Benefit for Long Term Care	Allows an insured to take an advance against the life insurance death benefit to help pay for long-term care. The percentage of death benefit available each month is 4% for up to 25 months when confined in a licensed nursing or assisted living facility, or 2% for 50 months when receiving home health or adult daycare. The Rider may not cover all costs associated with long term care incurred during the period of coverage.
Extension of Benefits for Long Term Care	If the insured’s entire death benefit under the Accelerated Death Benefit for Long Term Care Rider has been paid and the insured continues to be chronically ill, the Extension of Benefits Rider allows an insured to have extended benefits. The benefit will be for 4% for confinement in a licensed nursing or assisted living facility, or 2% for home health care or adult day care service on a month-to-month basis, for up to an additional 25 months or 50 months respectively.
Accelerated Death Benefit for Critical Care Condition	Benefit amount is 25% of the life insurance death benefit.
